

## Joko

Designed by Bartoli Studio

Studio Bartoli Design had been working for years on a project for a poetically minimalist chair. The outcome is Joko, an absolute product. The difficulty lay in minimising it as far as possible, without making it too basic or rigid. Its distinguishing feature is the single fused shape, which is soft and organic, of its surfaces that include the front legs, the back and the rear legs. Its continuous surface can be upholstered in a variety of materials: in leather and in fabric in different colours and versions.
