
Fat-Sofa

ARMCHAIRS

Patricia Urquiola

Description

Round, soft and sinuous shapes: this series of floor-standing seats without a metal base offers a new expression of comfort. The double-colour versions and those that mix leather and fabric are original with horizontal and vertical surfaces establishing a dialogue with each other through nuances of shades or with stronger contrasts. Once again in B&B Italia's history a product merges original shapes and technological innovation which, in this case, are represented by the use of slow-return viscoelastic foam that gradually adapts itself to the body and its posture.
